TO WHOM SO EVER IT MAY CONCERN

This is to certify that Keerat Singh, a student of **The Shri Ram School Aravali Gurgaon** has been interning with us since 2015, on an off during his vacations from school. Apart from my chartered accountancy firm (**ARBAN & Associates**) I am a member of the **HSIDC (Haryana State and Infrastructure Development Corporation Ltd)**. This is a public limited company, owned by the Government of India.

Keerat along with his brother Karam showed keen interest to learn more about water management and conservation. Both boys diligently pursued all the tasks assigned to them regularly. They were particularly interested in the hygiene and water management of public toilets closely worked with the department. Later, they incorporated some of their learning into their E toilets project **KICK (Keep it clean kids)** where they set up E toilets in 3 schools in the village of Ranikhet- a hill station in Utrakhand. The E toilets they installed consume only 1.5liters of water! The boys have been actively working to get funding to have these e toilets installed & running. They are now also keen to get similar e toilet in some rural schools of Haryana.

Keerat is a sincere and hard working boy and we hope he keeps this spark alive. He will be an asset to any institution that he applies for. We wish him best of luck in all his future endeavors.

Regards
